ACKNOWLEDGEMENT

I would like to express my gratitude to all the people behind the screen who helped me to transform an idea into a real application.

I would like to express my heart-felt gratitude to my parents without whom I would not have been privileged to achieve and fulfill my dreams. I am grateful to our Director, **Mr. Rajnish Yadav** who most ably runs the institution and has had the major hand in enabling me to do my project.

I profoundly thank **Mr. Govind Singh,** Head of the Department of Computer Science Engineering who has been an excellent guide and also a great source of inspiration to my work.

I would like to thank my internal guide **Mr. Govind Singh** Asst. Professor for his technical guidance, constant encouragement and support in carrying out my project at college.

The satisfaction and euphoria that accompany the successful completion of the task would be great but incomplete without the mention of the people who made it possible with their constant guidance and encouragement crowns all the efforts with success. In this context, I would like to thank all the other staff members, both teaching and non-teaching, who have extended their timely help and eased my task.

Mohit Prajapat (19ECACS017)

Parth Bairwa (20ECACS200)

Yash Shiva (19ECACS036)

Shakti Singh (19ECACS028)

ABSTRACT

CIT 360 is a Full Stack website project developed using Python, Django Web Framework, HTML, CSS, JavaScript, jQuery, Bootstrap, and Git Version Control System. The website includes features like UI/UX Designing, Website Admin Panel, Separate Student and Teachers Login, Students can Download Available Certificate on Their Name, Campaign app, Chat Bot, Suggestion Tabs for Students About Internship and Updates. The main aim of this project is to create a website that can provide a platform for students and teachers to communicate with each other, share information, and access various resources related to their academic needs. The website is designed to be user-friendly, easy to navigate, and visually appealing. The project will be developed over a period of 4 months, and the team consists of three members who will work together to deliver the project. The future scope of the project includes adding more features and functionalities to enhance the user experience and make the website more useful for students and teachers.

LIST OF FIGURES	VIII
CHAPTER 1: INTRODUCTION	1
1.1 Background and Motivation	1
1.2 Objective and Goals	1
1.3 Scope and Limitation	3
1.4 Structure and Organization of the Thesis	3
CHAPTER 2: TECHNOLOGY STACK	5
2.1 Python	5
2.2 Django Web Framework	6
2.3 HTML (Hyper Text Markup Language)	7
2.4 CSS (Cascading Style Sheets)	8
2.5 JavaScript	9
2.6 JQuery	10
2.7 Bootstrap	11
2.8 Git Version Control System	12
CHAPTER 3: SYSTEM ARCHITECTURE	14
3.1 Overview of the Overall Architecture	14
3.2 System Components	14
3.3 System Modules and Interactions	18

CHAPTER 4: Features and Functionality	22
4.1 UI/UX Designing	22
4.2 Website Admin Panel	24
4.3 Separate Student and Teachers Login	25
4.4 Notes Downloads	26
4.5 Separate Panel	27
4.6 Tabs for Internships and Seminars Updates	28
CHAPTER 5: Implementation and Challenges	30
5.1 Development Process and Methodologies	30
5.2 Challenges and Solutions	32
CHAPTER 6: Future Enhancements	34
6.1 Potential Future Enhancements	34
6.2 Additional Functionalities	34
CONCLUSION	39
